## **RESEARCH AREAS**

- Implementation of environmental justice and social equity principles by government and business entities: sustainability and climate change should be taken into account at all major decision points for business and government entities, yet social equity factors are not on the radar of most people in decision-making roles and that needs to change.
  - Wrote implementation guidance to be used by local government entities in evaluating social equity impacts
  - Successfully applied for a \$150K grant from the state of California to develop social equity analysis methodology and mapping tools

## **CERTIFICATIONS**
